

SKYLOTEC is a European manufacturer of innovative fall arrest and rescue solutions for various industries. With a commitment to excellence and a focus on quality, we aim to ensure safety in the workplace. To continue our development, we are looking for a dynamic and motivated individual to join our Training team at our GWO centre in the Paris region.

We are looking for a motivated and competent Instructor and Site Manager to join our team at the VRC France (Vertical Rescue College of SKYLOTEC France).

Instructor & Site Manager (m/f/x) - South Paris

Short description

You will be responsible for providing technical training in working at heights in a wind turbine environment, supervising external freelance instructors, managing facilities and ensuring compliance with safety standards. This position requires a strong commitment to safety, quality and customer satisfaction, as well as the ability to work closely with a variety of stakeholders.

Your responsibilities

- **Theoretical & practical training:** Welcoming participants and providing technical training, particularly in working at heights in a wind turbine environment (GWO, use of an electric winch, evacuation systems, PPE competent person, etc.)
- **Safety:** Supervising participants during practical exercises, ensuring that they scrupulously comply with safety instructions and operational procedures
- **Maintenance and PPE inspection:** Monitoring, inspection/checking of PPE. Managing the training site's equipment and facilities
- **Site management:** Ensuring the smooth organisation of daily operations, informing, briefing and supervising external service providers
- **Compliance:** Comply with environmental protection and workplace safety laws, legislation and regulations,

intervening in the event of danger to prevent any major environmental damage

- **Support:** Work with the Training Manager to develop new training modules, provide support during audits and participate in training planning and customer relations

Your Profile

- The ideal candidate will have solid experience in training, with a strong sense of responsibility and an excellent understanding of safety standards.
- A strong ability to communicate and maintain good relationships with a variety of stakeholders is essential.
- Experience in wind energy and/or rope access work and/or rescue required.
- Fluency in English is required to communicate with the headquarter in Germany.

Benefits

- Contract: permanent
- Competitive salary and attractive benefits (luncheon vouchers, company car)
- Opportunities for professional development

If you're passionate about training and want to make an active contribution to the continuous improvement of our operations, we invite you to apply now!
